Subject: Keep uber in SC

Please keep Uber in South Carolina. Our cabs have no customer service and don't feel safe. There is no easy way to call a cab and unfortunately we were doing a lot of buzzed drinking and driving instead of calling a cab. With Uber, we are much safer and actually use a designated driver. Not only is it safer for the uber riders it is safer for everyone on the road.

Subject: Let Uber provide low-cost rides for SC

I live in Greenville, SC and have always had an extremely difficult time finding a taxi home, not only on holidays (which is to be expected) but on regular weekend nights. This problem leads many to choose the wrong option of driving under the influence, which endangers all of us. Uber has filled this immediate need with low cost, effective and nice fares to and from homes. Do not restrict our ability to find cheap safe rides home.

Subject: Uber

Not letting Uber operate in the state of South Carolina is absolutely pathetic on several levels. Uber is a progressive concept that is perfectly safe and in no way harms the public. I have used Uber in Charleston along with many other cities with not one issue. The future is here and there is no reason why we South Carolinians should be forced to stick with the old. If cabbies feel it is a threat then do something about your own business model. Reinstate Uber's ability to provide a much needed service.

Regards,

Shawn Fiola
South Carolina Resident

Subject: Standing up for my right to use Uber

Uber is a significant asset to the area of Charleston. It is so hard to find cabs to take you to/from downtown, especially late into the evenings. Uber drivers are always available, reliable, and safely get him home. If South Carolina wants to decrease incidents of DUI's then they will allow Uber to operate and enable ridesharing in the state. #SCneedsUber.
